You can meet the faculty, get to know the campus and its services and become comfortable with the challenges of the college environment. If you are already a student, you can use the Winter Session to accelerate progress toward your degree by taking general education or prerequisite courses. Even if you are not degree-bound, you may want to start the new year by taking a course of special interest to you. The quiet Winter Session is a great way to explore new subjects or acquire new knowledge and skills on the CSUDH campus. Enrollment in a Winter Session course does not constitute admission to the University. If you are interested in University admission, call (310) 243-3696 for an application.

The University complies with Federal and State laws concerning privacy rights of students. These rights are summarized in the University Catalog. Questions about privacy rights may be directed to the Dean of Extended Education at (310) 243-3737 or the Vice President for Student Affairs at (310) 243-3784.

Use of Social Security Number

Students are required to provide the University with their correct social security numbers (individual taxpayer identification numbers) pursuant to the authority contained in Section 41201, Title 5, California Code of Regulations, and Section 6109 of the Internal Revenue Code. The University uses the social security number to identify records pertaining to the student and, if needed, to collect debts owed the University. Also, the Internal Revenue Service requires the University to file information returns that include the student's social security number and other information such as the amount paid for qualified tuition, related expenses, and interest on educational loans. That information is used to help determine whether a student, or a person claiming a student as a dependent, may take a credit or deduction to reduce federal income taxes. Students who do not have a social security number at the time of enrollment will be required to obtain a social security number and submit it to the University within sixty days. Failure to furnish a correct social security number may result in the imposition of a penalty by the Internal Revenue Service.

Important Tax Credit Information

The Hope Scholarship tax credit is available only to students in their first two years of postsecondary education who are enrolled at least half-time in an eligible program. The tax credits are based on the amount of qualified tuition and fees, less grants and other tax-free educational assistance and the taxpayer's modified adjusted gross income. Hope credits apply to fees paid after December 31, 1997.

The Lifetime Learning Tax Credit is available to students at all educational and enrollment levels who are enrolled at an eligible educational institution. As with the Hope Scholarship tax credit, this opportunity is based on the amount of qualified tuition and fees, less grants and other tax-free educational assistance and the taxpayer's modified adjusted gross income. The Lifetime Learning credit applies to fees paid after June 30, 1998. Consult IRS Publication 970 or your tax preparer for additional information on both programs.

Disabled Student Services

Students with verified disabilities, which are permanent or temporary (e.g., broken bones, strained back, other sprains, etc.) are eligible for a variety of support services from the Disabled Student Services Office.
