## Supervised Clinical Experience

Provide the following information about supervised clinical experience in 2019-20. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

Are there programs with student teaching models?

- Yes  
 No

If yes, provide the next two responses. If no, leave them blank.

### Programs with student teaching models (most traditional programs)

Number of clock hours of supervised clinical experience required prior to student teaching

Number of clock hours required for student teaching

Are there programs in which candidates are the teacher of record?

- Yes  
 No

If yes, provide the next two responses. If no, leave them blank.

### Programs in which candidates are the teacher of record in a classroom during the program (many alternative programs)

Number of clock hours of supervised clinical experience required prior to teaching as the teacher of record in a classroom

Number of years required for teaching as the teacher of record in a classroom

# Enrollment and Program Completers

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

**(§205(a)(1)(C)(ii))**

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

## Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- >> [Teachers Prepared by Academic Major](#)

## Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2019-20.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

### What are CIP Codes?

No teachers prepared in academic year 2019-20

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

## Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2019-20. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

### [What are CIP Codes?](#)

Do participants earn a degree upon completion of the program?

- Yes  
 No

# Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

## Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes  
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes  
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes  
 No  
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes  
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes  
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes  
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes  
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

CSUDH maintains close partnerships with local districts and schools. Members of our Advisory groups give us feedback and insight into our programs. Employer surveys allow us to respond to local needs for teachers. Coursework in the General Education programs emphasizes strategies for teaching children with special needs, and children who are learning English as a second language. Specific assignments require candidates to become familiar with community resources, families, and school cultures. We are located in an urban area, and this is the focus of our programs. We place student teachers and interns in local urban schools, and they are supported by field supervisors who guide their observations and instruction along these lines.

## Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

## Report Progress on Last Year's Goal (2019-20)

1. Did your program prepare teachers in mathematics in 2019-20?

If no, leave remaining questions for 2019-20 blank (or [clear responses already entered](#)).

- Yes  
 No

2. Describe your goal.

During 2019-2020, we expected to enroll an additional 15 prospective math teachers.

3. Did your program meet the goal?

- Yes  
 No

4. Description of strategies used to achieve goal, if applicable:

As a program, we are using a few recruitment strategies to meet this goal. First, we are holding monthly information sessions for potential math teacher candidates advertised on our website, through social media, and email listserves. Second, we reconvened a committee on campus called the Undergraduate Education Program Committee. The committee is comprised of faculty around campus that are interested in supporting their undergraduate students enter the teaching profession. The committee is represented by faculty in the math, science, foreign languages, and English departments on campus. Lastly, we had an uptick in both applications from new students and students returning to finish their credential. Speculatively, we attribute this to the California Commission on Teacher Credentialing issuing waivers for required standardized tests (e.g., CSET, RICA, CalTPA).

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

## Report Progress on Last Year's Goal (2019-20)

### 1. Did your program prepare teachers in special education in 2019-20?

If no, leave remaining questions for 2019-20 blank (or [clear responses already entered](#)).

- Yes  
 No

### 2. Describe your goal.

During 2019-2020, we expected to enroll an additional 25 prospective special education teachers.

### 3. Did your program meet the goal?

- Yes  
 No

### 4. Description of strategies used to achieve goal, if applicable:

As a program, we used a few recruitment strategies to achieve this goal. First, we hold monthly information sessions for potential special education teacher candidates advertised on our website, through social media, and email listserves. Second, we made an intentional effort to recruit CSUDH undergraduate students taking a Disabilities Studies class in the Anthropology department. We are looking at other potential undergraduate classes that might have students interested in pursuing a special education teaching credential. Third, we have strategically partnered with local school districts to recruit paraprofessionals interested in pursuing a special education teaching credential. We currently have a teacher residency pathway partnership with LAUSD that provides a stipend for teacher candidates interested in obtaining a special education teaching credential. Lastly, we saw an uptick in applications and students returning to finish their credential, speculatively due to the California Commission on Teacher Credentialing issuing testing waivers in response to the COVID-19 global pandemic. Specifically, CSET, RICA, and CalTPA waivers are being offered to students enabling them to continue and finish their credential program.

### 5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

## Review Current Year's Goal (2020-21)

7. Is your program preparing teachers in special education in 2020-21? If no, leave the next question blank.

- Yes  
 No

8. Describe your goal.

Given that our focus has turned to our special education residency program, we expect to enroll 25 special education teachers in 2020-2021.

## Set Next Year's Goal (2021-22)

9. Will your program prepare teachers in special education in 2021-22? If no, leave the next question blank.

- Yes  
 No

10. Describe your goal.

Given that our focus has turned to our special education residency program, we expect to enroll 25 special education teachers in 2021-2022.

 No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

As a program, we will use a few recruitment strategies to achieve this goal. First, we will hold monthly information sessions for potential special education teacher candidates advertised on our website, through social media, and email listserves. Second, we will reconvene a committee on campus called the Undergraduate Education Program Committee. The committee is comprised of faculty around campus that are interested in supporting their undergraduate students enter the teaching profession. The committee is represented by faculty in the math, science, foreign languages, and English departments on campus. Lastly, we have a strong partnership with LAUSD through our bilingual teacher residency program. Through this program we provide stipends to teacher candidates interested in obtaining their multiple subject credential with an added bilingual authorization.

**6. Provide any additional comments, exceptions and explanations below:**

In California, all of the teaching credential programs (multiple subject, single subject, special education/education specialist) prepare teachers in instruction of limited English proficient students.

## Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period.  [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

## Summary Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period.  [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

Provide the following information about the approval or accreditation of your teacher preparation program. ([§205\(a\)\(1\)\(D\)](#), [§205\(a\)\(1\)\(E\)](#))

## Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- Yes
- No

If yes, please specify the organization(s) that approved or accredited your program:

- State
- CAEP
- AAQEP
- Other specify:

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

- Yes
- No

# Use of Technology

On this page, review the questions regarding your program's use of technology. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

## Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.  [\(§205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes  
 No

- b. use technology effectively to collect data to improve teaching and learning

Yes  
 No

- c. use technology effectively to manage data to improve teaching and learning

Yes  
 No

- d. use technology effectively to analyze data to improve teaching and learning

Yes  
 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Candidates are required to meet basic requirements for technology proficiency through coursework. In their methods coursework, they learn how to infuse technology into their lessons. In addition, they learn where to find data on state, district, and school-level performances on standardized tests. They practice using assessments in Reading/Language Arts, and use results to plan lessons. Candidates examine samples of district and school-level achievement data and incorporate them into signature assignments. In student teaching, they demonstrate their ability to integrate technology into their planning and instruction. Candidates also use complex technology as they complete their coursework. Throughout the program, faculty and students use Blackboard as a method for communicating with candidates, posting and receiving assignments, and engaging students in dialogue. Regarding Universal Design for Learning, all methods courses in each program follow similar templates for lesson planning, and these include prompts to plan for students with special needs and for those who are English learners. Candidates learn to apply multiple strategies to address the learning needs of all children in the classroom, including the use of realia and manipulatives, graphic organizers or representations, and small-group guided learning activities. In the 2019-20 Completers' Exit Survey, 96% of the responding credential candidates had a positive impression of being well trained to plan and adapt instruction using appropriate strategies, resources, and technology with 41% stating they felt very well prepared, and 32% stating they felt well prepared.

Provide the following information about your teacher preparation program.

**(§205(a)(1)(G))**

## Teacher Training

### 1. Provide a description of the activities that prepare general education teachers to:

#### a. Teach students with disabilities effectively

All general education students are required to take a course titled: EDUCATING STUDENTS WITH SPECIAL NEEDS WITHIN INCLUSIVE SETTINGS (SPE 482). In this class, students will identify strategies and approaches to make general education classrooms inclusive for all students. Integrate students' funds of knowledge, social-emotional learning, developmental considerations and technology to support students and engage families.

#### b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

#### c. Effectively teach students who are limited English proficient.

In California, all of the teaching credential programs (multiple subject, single subject, special education/education specialist) prepare teachers in instruction of limited English proficient students. Each credential candidate that completes our program earns an English Learner Authorization and Cross-cultural, Language, and Academic Development (CLAD) certificate. This certificate authorizes teachers to deliver instruction for English language development (ELD) and specially design academic instruction delivered in English (SDAIE). The requisite knowledge and skills for this certificate are included in all coursework within our traditional teacher education program.

### 2. Does your program prepare special education teachers?

 Yes

 No

If yes, provide a description of the activities that prepare *special education teachers* to:

#### a. Teach students with disabilities effectively

Candidates in all Education Specialist Credential programs take SPE 480 Educating Exceptional Children and Youth, and SPE 481 Educating Diverse Learners with Exceptionalities, which provide an overview of disabilities, service structures, legal issues, and the process for implementing Individual Education Plans. More in-depth study of these issues occurs in subsequent coursework, including SPE 561 Typical and Atypical Developmental and Assessment Issues in Special Education. During their early fieldwork and student teaching, candidates receive extensive experience in teaching students with disabilities effectively. Master Teachers and Field Supervisors closely support student learning over a period of 15 weeks. The Special Education faculty has made revisions to the programs in response to requirements from the CA Commission on Teacher Credentialing.

## Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

The credential programs at CSU Dominguez Hills offer a coursework and fieldwork sequence that is designed to effectively prepare candidates to teach all students, with an emphasis on urban school settings. The Multiple and Single Subject programs are organized into Phases (university semesters) that include courses and field experiences. Students may not move on to the next phase until all coursework and assessment requirements are met for each phase. Special Education transition points are linked to early fieldwork and final fieldwork whereas candidates' coursework and assessment requirements must be met before acceptance into fieldwork. Interns (Alternative Program) in Multiple Subject, Single Subject, and Special Education work full-time in a classroom as the teacher of record while taking courses toward their credentials. They are visited regularly by a support provider, and are given further mentoring by an onsite administrator. All candidates have extensive opportunities to study and apply the state-adopted content standards, and to practice in each area of the Teaching Performance Expectations. Throughout each credential program, candidates are engaged in performance assessment tasks and assignments. Signature or key assignments in each program allow faculty to monitor candidates' progress toward completion. Candidates' dispositions are likewise monitored, primarily through fieldwork experiences and interactions with colleagues and peers. Each program has assessment plans that denotes performance and non-performance assessment across each program (beginning, middle, and end). Each assessment is reviewed, at least annually by program faculty. This review includes data analysis, reflection, and program improvement (DRPI+) with documented accountability.
