

Dr. Jeffrey Golden

Director, Burns and Allen Research Institute, Vice Dean, Research and Graduate Education Pathology at Cedars-Sinai

MAR 9 | 2 PM
Loker Student Union - Ballroom B

"Using Data to Transform Healthcare"

Co-sponsored by the Department of Clinical Science and Office of Undergraduate Research

Dr. Golden will examine the role of data utilization and integration (Bioinformatics) in modern clinical diagnostics. The audience will gain an insight into the future of medicine and an approach to healthcare. Current and emerging opportunities for students in medical fields will also be discussed. Students are encouraged to attend.
