

Is a Post-Bacc Program Right for Me?

A post-baccalaureate program can serve as a valuable bridge between completing your undergraduate degree and entering a doctoral program, medical school, or other professional graduate programs. If you are considering taking a gap year to strengthen your academic record, gain research experience, improve your GPA, or complete prerequisite coursework, a post-bacc program may be the right choice for you. In this workshop, we will explore the different types of post-bacc programs, their structures, admissions requirements, funding options, and career pathways that post-bacc programs can support.

With Dr. Erin McCauley, Department of Chemistry & Biochemistry

April 24th | 2:30-3:30 PM | Via Zoom
