

# Organizing & Citing Your Research

Are you having trouble keeping track of and citing your sources? This workshop will introduce you to citation management software and strategies. This workshop will cover why and how we cite sources in research. In addition to covering the role of plagiarism and academic integrity in citation, we'll also discuss how the act of citation can be a social justice practice. Finally, we'll demonstrate the free tool, Zotero, which can help you collect, organize, and cite your sources in MLA, APA, ASA, CSE, and other styles in Microsoft Word or Google Docs.

**With Aric Haas & Carolyn Caffrey, University Library**

**March 20<sup>th</sup>**
